really appreciate it I'm looking forward to getting out all of you I've been in this position of the community employment alliance for about four months the commune employment lines director and in that time I'm not sure if everyone's familiar with what the community employment Lions does so I'll just provide just enough information to be dangerous cause I know there's a lot of folks that want to speak today I'm going to be very quick um so the community employment alliance is comprised of many organizations throughout the state of Washington that provide employment services to those individuals with disabilities and our focus is inclusion and making sure individuals with disabilities are represented in the workplace equitably and something that i really so all is really important when I first started to was to ensure that app self-advocates were at the table when it comes to making decisions when it comes to important meetings and when it comes to kind of getting ahead and forecasting especially with the anticipated budget cuts we're seeing and so I've been blessed and we have so many great members on that serve on many of our committees but what really stood out to me was at our community employment alliance virtual conference this spring both it was a month ago or few weeks ago um self-advocates opened up our conference and I I cannot tell you how many emails i got in return by saying how crucial that wasn't how important that was for folks to hear their message and I I'm taking it as a personal priority to

ensure I show up to meetings as many meetings as I possibly can I'm also pregnant and have a lot of other meetings but as often as I can because I want to make sure that I'm hearing that message and I don't forget um the relevancy of hearing what everyone has to say and the importance of what you have to say and so that's just a little bit about me and my focus this year so essentially just being really inclusive when it comes to self-advocates in the work that you guys
